KEYSTONE HUMAN SERVICES

Working in Pennsylvania, Delaware, Connecticut, New Jersey, Moldova, and India, we focus on inclusion for people with disabilities—designing and developing innovative, sustainable community-based services, ending institutionalization, promoting disability rights, and connecting people with the resources they need to pursue their goals at home, school, work, and in the community.

Intellectual Disability Services

People with intellectual disabilities direct their own lives, with support to build relationships, develop natural supports, pursue employment, and take on valued roles. People live in their own home, a KHS-owned or rented home, or with family as they reach for their goals and dreams.

Autism Services

KHS's autism services are flexible and individualized, giving people the opportunity to tailor supports to meet their needs and goals around home, school, work, or the community. Services include the internationally recognized Adult Community Autism Program (ACAP), residential services, and supports to pursue employment, higher education, and increased independence at home and in the community.

Mental Health Services

Each person's path toward mental health recovery is unique. KHS's Mental Health Services meet people where they are by offering individualized services and opportunities to develop skills and acquire resources to reach their goals.

Global Programs and Advocacy

KHS provides consultation, collaboration, and education to organizations and governments seeking to end institutionalization, establish sustainable and inclusive community-based services, and incorporate disability inclusion in policy and legislative frameworks.

Capital Area Head Start

Capital Area Head Start (CAHS) gives children a head start in life, empowers parents, and strengthens families. Serving expectant families and children birth through five, CAHS provides comprehensive early childhood services in Dauphin, Cumberland, and Perry Counties in Pennsylvania.

Susquehanna Service Dogs

Susquehanna Service Dogs (SSD) breeds, raises, trains, and places assistance dogs and hearing dogs, as well as facility dogs, to assist children and adults to live more independently and gain the confidence to do things they never thought were possible.

Keystone Human Services supports people to live their best lives. Our work is based on the principle that everyone deserves an opportunity to become a fully participating member of their community.

Keystone Human Services is dedicated to empowering the people accepting our services through a variety of programs and events supporting our mission.

CORPORATE LEADERSHIP SOCIETY

Keystone Human Services Corporate Leadership Society is evolving with a fresh, new look — while keeping our mission at the heart of everything we do. We're excited to introduce three dynamic sponsorship levels that reflect the impact of our partners.

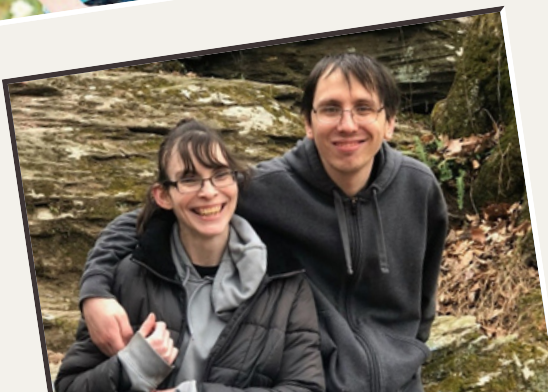

Visionary Leader (Formerly Platinum)

Impact Partner (Formerly Gold)

Community Supporter (Formerly Silver)

Impact through Events – Enhanced event opportunities provide high-visibility brand recognition and meaningful employee engagement. Showcase your corporate leadership while connecting with the larger KHS community through premier experiences that make a difference.

Corporate and Community Engagement – Strengthen your brand and foster a culture of connection through hands-on employee engagement and strategic marketing benefits. Align your company with a mission-driven partnership.

“

“We are all individuals,” said Elizabeth Fromm (Liz), speaking about employment. “We don’t all have the same support needs. Some of us might need outside support from a program, but that doesn’t mean we can’t work or aren’t employable. Sometimes it may take us a little longer to catch on to new tasks, but that’s it.”

Liz works for Canteen Vending in Lancaster, PA, where she helps to package food and other items. She took advantage of the employment services available through the Adult Community Autism Program (ACAP) to figure out what kind of jobs she was interested in and prepare for interviews.
